

HANFORD SITE PERFORMANCE REPORT	ALL HANFORD PROJECTS OSHA Lost/Restricted Workday Case Rate	FEBRUARY 1998
------------------------------------	--	---------------

OSHA Recordable Cases with Lost or Restricted Work Days have been decreasing sitewide over the past 2 years. This represents a significant improvement in Worker Safety. This indicator has been stable since September 1996, but there was a nearly significant increase in October 1997. The rates have returned to baseline.

Benchmarks: DOE and Contractors CY 96 Rate = 1.5, Contractor = 1.6, Construction = 2.4, Research = 1.4

The ERC has an overall OSHA Lost/Restricted Workday Case Rate of 2.9, which is slightly above the U.S. Department of Energy (DOE) Construction Benchmark of 2.4. However, the ERC Lost/Restricted Workday Case Rate average for the past 12 months has been close to the DOE average.
